T Levels at HRC

T Levels are an alternative to A Levels, apprenticeships and other full-time courses, delivered in conjunction with local and national employers. Equivalent to three A Levels, T Levels focus on vocational skills and can help you to move into skilled employment, higher education or apprenticeships.

Each T Level includes an in-depth industry placement that lasts at least 315 hours. Students have the opportunity to obtain valuable experience in the workplace, while employers gain early sight of the new talent in their industry.

We currently offer T Levels in:

Science

Education & Childcare

Digital Software Development

Design, Surveying and Planning for Construction

Maintenance, Installation and Repair for Engineering and Manufacture

Business Management and Administration

T Level offerings are subject to change -
